## Number 2 Los Angeles State College

## Carroll Carroll Feature Of Writers Conference

## Noted TV Writer-Producer Lectures On 'Problems of Television Writing'

The third-annual Pacific Coast Writers Conference got off to a rousing start last Tuesday, after a strong enrollment Monday.

Professor Frederick B. Shroyer, director of the meet, and
 Room-Social Arts 203. A shor orlentation session followed, after which the history and overall purpose of the conference were out-

After a short break, the conference assembled to hear a talk on "A New and Needed Outlet for Writers: The Essay" by Dr. Paul Jordan-Smith, book editor of the Los Angeles Times.

On Wednesday, at 1 p.m., Jay Pursel, field editor for Charles
Scribners Sons Publishing house Scribners Sons Publishing house, addressed the conference on "What the Major Book Publishers Are Looking for," and then answered specific questions put to him by members of the group.
At 2 p.m., Dr. Williams spoke on "Trends in Modern Novel Writing," the first of two lectures on this subject. The second section will be presented tomorow at 1 p.m.
Carroll Carroll, CBS writer and producer. who is this year's extalk to the conference from 3 to talk to the conference from 3 to
5 p.m. His general topic is "Problems of Television Writing." Part II of his series was heard Thursday at the same time.

## Writing the Pop

Also on Thursday, from 1 to 3 , a lecture-discussion on "Writing for the Popular Magazines" was presented by Frank Gold, editor for This extensive topic was continued Friday afterne topic was continued Friday afternoon until $2: 30$.

At that time, a reception f members of the conference was held in the Student Union, a getacquainted session with speakers and faculty members. For two hours, conferees milled about, drank coffee, and exchanged ideas and problems.

## Mystery Panel

Today, the entire afternoon will be given over to a panel of 12 writing members of the Mystery Writers of America, Inc. The panel, headed by Malden Grange Bishop, regional vice president of the group, will speak briefly on various phases of mystery writing and will then enter into discussion of questions presented from the floor.
Among those taking part in the panel are Bishop, Jean Cornett, Leona Elliott, the Gordons, Lawrence Goldman, James Howard, C. L. Moore, Leonard Levinson, Stuart Palmer, and Edward S. Sullivan

## TEACHERS <br> TO APPLY <br> BY TODAY

Students who are seeking admission to the teaching program quired six units should the required six units should make application in Office E, 743 North Berendo today for oral interview and written exam.
Students completing requirements for the degree this Summer Session should make application for the examination in Office E, 743 North Berendo by July 15.

## Enrollees Eat,

 Drink During RegistrationState students-some 3732 of them as of Tuesday night gourged themselves on 50 cas es of soft drinks, 39 gallons of coffee and almost 4000 cookies during the summer registration period.
John Salmond, State College registrar, said that while the total of enrollees was 3732 at last count, he felt sure that the total would exceed 4000 by the time the final tally is in.
This is an increase of more than 600 over last summer and almost 1000 over 1953
The refreshment depot-the roof on Holmes Hall-found more than 2000 students taking advantage of the free food. Mrs. Cynthia Johnson, assistant dean of student activities, reported that the station was filled almost constantly from
the time it opened.
Money for the coffee, cookies and soft drinks along with the tables and umbrellas was taken from the sale of activity cards.
It was reported by Salmond, off records from previous years, that about 5 per cent of the summer students are from out of the Los Angeles area.

## FREE REFRESHMENTS

With 20 -week courses concentrated down into six week doses and with the added distraction of scorching afternoons and sultry evenings anyone's-faculty or stu-dent-physical stamina may become strained.

For this reason the "At Your Leisure" program includes two summer interludes as a pause in
the daily grind and an oasis in the mental drought of summer.

## First of Two

Stress of classes and studies are expected to skid to a near-halt Tuesday night when Associated Students present the first of the two summer interludes.
Activities are slated to begin at 6:30 p.m. in Student Union Lounge and will conclude at $9: 30$ p.m.
Free refreshments and relaxation will be offered and tentative plans are to feature display of interest to the general public sponsored by the various summer workshop programs.

Free Refreshments
Refreshments include free punch, coffee, and cookies which will be served by women of Omega Alpha Delta, the evening division sorority.

IT'S THE BERRIES-Kñott's Berry Farm is the scheduled tour on Thursday along with a trip through CBS television. Pictured above is the Calico Saloon, traditional landmark at the farm. A full load of students is expected to make the trip.

## Students, Faculty Meet Next Friday for Annual Reception

Students and faculty alike gath-<br>personnel; Dean Albert D. Graves, er in the Student Union Lounge Friday at

reception.

## The event will offer an oportu

nity for students to meet faculty members in the informal atmosphere of a "cup of coffee."

Reception Line
Dr. Howard S. McDonald, State College president, along with all division chairmen, will be in the reception line. Last summer at this event there were more than 300 people, said Mrs. Cynthia Johnson, assistant dean of student activities Refreshments at the studentfaculty reception are free and in clude punch, coffee and cookies.

President-Elect
Others in the reception line include William R. Pippin, student body president-elect; Dean Mor ton J. Renshaw, dean of student head of the Summer Session and other State College administrators.

"Affairs like this offer a wonder- ful chance for the student to encounter his professor in the informal way that we at State College student never gets the chance just views the instructor from be just views the instuctor from be hind his desk," said Robert S. Law-

rence, former student body president, now assisting Mrs. Johnson on the summer activity program.

## New Faculty

Another feature of the reception will be the introduction of all the new faculty members. There are instructors from as far away as New York teaching at State for the first time this summer.
This reception has been planned with the overall theme of the Summer Session in mind-"At You

## 'Interlude' Tomorrow Night

Robert S. Lawrence, outgoing
tudent body president, is chairstudent body president, is chair-
man of this first summer interman of this first summer inter-
lude; Emily Eyraud will man the lude; Emily Eyraud will man the second which was scheduled for
Wednesday, June 20 , also from 6:30-9:30 p.m. in Student Union. The event is founded on the tra

INTERLUDE - Summer evening students will reign supreme at Summer Interlude tomorrow night, said Lawrence.
dition of the regular sesslon's Koffee Kapers, informal monthly sessions where faculty and students can meet and relax formally to brush elbows and discuss everything but class activities.
Each Kaper generally spotlights a department or other campus activity through the use of displays and exhibits and the summer version is no exception.
Included in the proposed display are exhibits of various educational aids and construction and art
project examples which can be project examples which can be
used with deaf and physically handicapped children.

May Postpone Display
There is a possibility, states Lawrence, that the exhibits will the first interlude, in which case they are expected to be the main feature of the second one scheduled June 20
Although the affair is scheduled in the evening, day students are welcome to attend, states Mrs. Cynthia Johnson, assistant activities officer. Faculty members have also been invited to bring their classes to the Student Union on their refreshment break.

## CBS, Knott's Second Week's

Tour Features
With the third and fourth trips to outstanding places in Southern California scheduled for Thursday, the Summer Session slate of the leisure time activities is winging along in high gear. and the long awaited trip television fabulous Knotts Berry Farm are on the schedule. There are a few re

BULLETIN
Due to the overwhelming demand, additional busses have been obtained for the trips to Marineland and the Huntington Library.
maining tickets for the two trips, announced Mrs. Cynthia Johnson assistant dean of activities. They may be obtained in Bungalow $G$.
The buses will leave the receiving entrance at Vermont and Burns at 1 p.m.
In the old days, the boysenber ries raised and sold at Knott's farm, as it was then called, were so sought after that the owner were persuaded to open a small restaurant.
Business increased enormously were time a few western relic play increased. The crowds grew larger
Today one of the most complete duplications of an oldtime western cow town attracts thousands of tourists yearly. The Tex Williams western radio show broadcasts from Knotts Berry Farm every Friday, and the once simple farm has become a reknowned show place.
Last week two full bus loads made the initial summer trip to Twentieth Century Fox and Walt Disney Studios.
Robert S. Lawrence, former stu dent body president and curren assistant to Mrs. Johnson on the summer activity program, an nounced that one more trip had been scheduled. It will be through the Schlitz brewry on Thursday, July 14.

## 'First Freedom' Wellman's Topic In Convocation

Tomorrow afternoon, in Administration Auditorium, Paul I. Wellman will address an all-college convocation.
Taking as his subject the "First Freedm," Wellman will discuss at tacks on America's first line of de fence against political and social oppression, freedom of speech and of the press.
Wellman will be remembered by many as the extended lecturer a last summer's Pacific Coast Writ ers Conference. His series of seven talks has been spoken of as "the most complete and useful shor course in the novel that has eve been presented."
Considered by many as one of the most successful writers in America today, Wellman's novels include such well known titles as "Glory", 'God and Gold," "The Female," "Death on the Prairie," "Jubal Troop," "The Walls of Jericho," "The Chain," "The Iron Mistress," and "The Bowl of Brass." Many of his books have been equally successful as motion ictures.
The convocation is the first allollege function of the Summer Session. All faculty and students are invited. Classes may be excused from 12 to 1 p.m., at the discretion of the instructor, to enable attendance of the event.

Remembrancer
There are days that one likes to remember, and others that one would rather like to forget.
Lady History teaches proudly the younger eitizens about those outstanding and well fulfilled days which fashioned the United States.
Julf 4 th, 1776 , was such a day. The day in itself was not much more different than presently. But there were dark clouds of misery, disillusion and unjustice rolling over the British Crown's colonies.
People were whispering from ear to ear the latest cruelties and private clashes with the British Red Coats. Now, the whisper was becoming a guttural rumor. A rumor ready to explode into one revolution.
In Philadelphia, for the first time in the history of this country, leaders from several states sat around a table to decide the fate of America.
In its first session, the Continental Congress had discussed and signed the future of the United States.
The simple act of signing a proclamation of Independence brought about the unification of multi-language speaking people from different creeds, under the banner of the new free state.
Religious differences disappeared, and their worshippers fought and prayed side by side for the same ideals.
Everything that we have today, democracy, justice and freedom, was inherited from the work of those famous ancestors. Their good work was nicely carried on beyond the standards in which those men could have hoped for.
Instead, they layed down the solid foundations for the No. 1 nation in the world today.
The new car that you'll be driving to the beach Monday; the "refrigidaire" where nice cool cans of beer await your desire; the drive in theaters and pop corn; hot dogs purchased at a fountain.

All those luscious things provided by our modern society, afe part of America. All have further developed, because, years ago, on July 4, inhabitants of the colonies took the name of Americans and revolted against the British. Without it, there wouldn't have been an America, a productive and still developing country.
It's why, the celebration in commemoration of that day should be remembered by every American citizen. They should also raise their hats to those who died to make this dream come through.

## The Reader Writes

All letters to the editor of the Summer Times will be reprinted without omission provided the writer follows these simple rules:
Please limit letters to 250 words.
Letters must be signed and also include the writer's identification number. Upon request the name will be left off, but the ID number will be printed.
Deadline for letters is Thursday at, noon.
Address all letters to-Executive Editor, Summer Times in Bungalow 2, or leave the letter in the College Times box in Bungalow G.

## Nothing Revisited...

In these days of atom bombs and threats from outer space, there was one interesting comment we ran across that seems rather apropos to the era in which we live.
It seems a space ship landed in a cow pasture and some men from other worlds emerged. Walking over to a grazing heifer the little green man demanded, "Take me to your President!'
Then, of course, there was the man who, upon opening one of those rice cookies in a Chinese restaurant, was confronted with a little piece of paper on which was scrawled, "Help! I'm being held a prisoner in the Wong Ho Noodle Factory."

## HANDY MEN

Students, Instructors Question Practicality

BY TOM TOLAND
As a student are you getting too much HOW and WHAT from education and not enough of the WHY of things?
Is American education guilty of being too practical?
With a system of junior colleges trade schools and technical col leges, we seem to produce a breed of intellectual "handy men." American youth is well equipped to attack life and work from a "what is the most practical way to do this thing" attitude. But they aren't aware, enough, of the underlying principles behind the problems they are trying to solve

## No Einstein

Recently Life magazine theorzed that our educational "climate, could not produce an Einstein. "We lack," the editorial said, "the necessary abstract, purely intellectual, attitude required to spawn such a thinker."
From birth an American learns the massed produced way, the easy way the labor-saving way and the money-saving way
But seldom does he learn the underlying cause behind his actions.

## Pure Research

At this juncture one might ask, "So what? What is the value of this oh so fine 'pure research'?" t's paradoxical (and herein lies the secret of the whole matter) that so-called "pure research" will eventually out-practical the practical. Theoretical science strives to understand a problem and thereby not only solve it, but out of the old discovers the new.
However, American science has matured and developed because it has, to a degree, borrowed European science's standards of vigorous applied thought.

## One in Twenty

Today the nation spends two billion dollars on science. Yet, only one dollar in twenty of this goes to pure research.
The reason for this proportion is that the apparent value of this
type of research is vague. The lesson of Einstein hasn't been properly learned. Einstein, with pencil, paper and mind, achieved as much atomic knowledge as the Manhatten Project and three billion dollars.
Practical America fails to see that to progress we must climb upward on a ladder of new theories, The pragmatic refinement of present science results in now new upward climb. Man advances only through the utilization of new concepts.

And yet, American education
rection when one of its products, a Caltech man, can realize "biology is really biochemistry, and chemistry is a branch of physics. And in turn, physics is only a component part of philosophy."

Great Pioneers
Th great US-born pioneers of science, Franklin, Willard Gibbs to Oppenheimer, practically all studied in Europe. Slowly, as if by osmosis, our technical science is acquiring some of Europe's rigid standards. This should be Ameri-
cant education's clue to initiate can education's clue to initiate
more of the classically "thinking" courses.
Education must instill in our young people an almost religious curiosity about nature and her great unanswered secrets-we need not to control, but to understand.

## PEDEPARTMENT <br> OFFERS COLLEGE DRIVING CLASS

The State College PE department will offer a driving training class on Snyder Field on Tuesdays and Thursdays at 7:30 and 8:30 a.m.
The class will be taught by Sax Elliot and aimed for Driver's Education majors, according to Jim Brownfield, student in charge of driving.
Students interested in the course or wishing to learn how to drive should contact Elliot in the PE Annex or come to Social Arts 106 on Monday or Wednesday at 7:30 or 8:30 a.m. Students' instruction is free of charge.
Students may ask further information about this course from Brownfield at NOrmandy 4-6105.

Gamm's Gamut

## BY ROBERT W. GAMM

## Summer Times Executive Editor

Last week hundreds of college students heralded the arrival of summer. But there was another group
 hand. This common species is known as the "Coffee Car Hoppers.

Membership is open to all teenagers and above, who have noth ing to do with their time (anc little money), but peel out of their "pads" with their stripped downed chevies and "cool it" to the nearest drive-in restaurant.
These "rambling romeos" screech to a sudden death stop as they survey the local scene before parking from three to five hours, sipping the same cold, muddy liquid, sometimes identified as coffee.

## FOUR WHEEL JUNGLE

In between sips, they canvas the area by crawl ing over 20 cars and waiters to see what the boys are having on the other side. Of course, the main reason for being there isn't the liquid refreshment but the "chicks" that have "come on strong" by checking in as advertised.
And that's when the fun really begins. When the signal is given, both guys and gals plays the game signal is given, both guys and gals plays the game
of "switch" and transfer into other cars. They may of "switch" and transfer into other cars. They may
not even know who's in the next car, but that not eyen know
doesn't matter.
. Meanwhile waiters and waiteresses are going crazy trying to discover where their customers have gone and who gets what. So they all join in the game and the chase is on.
To make the game more interesting, the customer should switch to another car every time his order gets within smelling distance. This leaves the waiter frustrated and the coffee nice and cold

## DAY OF RECKONING

But don't think that these "Coffee Car Hoppers" have the last word. Recently several restaurants in the Wilshire-La Cienega district have come up with a solution which, though effective has made the "Coffee Car Hopper" imbittered against the management and life in general.
For these "eoffee pits" have had to resort to police action in order to curb the "Coffee Car Hopper," Now these people are greeted by uniformed police who check the cars for curfew violators as well as who check the cal
keep them in line.
What do they think of the latest move by drive-in restaurant owners? As one teenager put it: "It's geeting so bad, I'll have to drink my coffee at home."

## Dogs Up

## BY BENNETT J. MINTZ

## Summer Times Managing Edito

The other afternoon out at Hollywood Park a chestnut son of Khaled went up against older horses
 and beat them.
Now this in itself is not the greatest thing that has happened since the Johnstown flood, but the manner he did it is rather unnerving, especialy for a Mr . Woodward of New York.
In a nutshell, the son of Khaled in question is a 3 year old named Swaps. He also hapens to be the winner of this year's Kentucky

## Derby

Now in that Run-for-the-Roses, as Bill Corum tabbed it many moons ago, Swaps was second favorite to a long striding son of Nasrulla named Nashua. Nashua had only been whipped twice in his career, and since becoming a 3 year old was something of a phenom. Besides, he had heady Eddie Arcaro on his back, and Arcaro has a way with winning the Derby. He has copped five.
Anyway, Swaps, with Jockey Willie Shoemaker in the boot, won the affair from wire to wire (or as they say in England, "From go to whoa"
After the race, Swaps shipped back to California, while Nashua entered and won both the Belmont Stakes and the Pimlico - tantamount requisition to being named horse of the year,
In any ordinary year, that is.
This year he has Swaps to contend with. For Swaps, you see, has already met and defeated older horses-in world record time of $1: 40.4$ for a mile and one sixteenth. And at that Swaps wasn't even touched with a whip-and among the field that he beat was last year's Derby winner, Determine.
So, in order to find the true pinner of horse of the year honors, Al Wesson, publicity director for Hollywood Park, set up a series of match races between the two great colts. Rex C. Ellsworth, owner of Swaps, is all for it, and so is Cowboy Misch Tenney, Swaps' trainer. The only one opposed to the affair is Mr . Woodward.
And well he might be.
For as fine a colt as Nashua is, Swaps is that much better. As a 3 year old he has yet to taste defeat. He won the Santa Anita Derby, the Kentucky
(Continued on Page 3)

## Mask and Bauble

## BY FREDRIC GAVLIN

Summer Times Entertainment Editor
Not many of us are able to leave town during the summer to work a season of stock, as Tommy Vize and Sammie Craiker

$\frac{2}{2}=\frac{2}{2}$play than work in one

There is an almost universal wail from both camps: there isn't enough theater in Los Angeles. But there is. "Little" theaters, "semiprofessional" theaters, drama "groups" abound in the city.
For those who may want to act, or "do tech," the opportunities are numerous and people who perforce must earn a living and, because of day time jobs, do their theater work in the evening. Rehearsals run from four to five weeks, three or four nights a week, and playing time varies from a weekend or two as high as a couple of months. A very few of the outfits make a nominal payment a few others demand payment; most groups, though, con tribute time, effort and energy "just to be in it."
The number of such groups, as I've said, is almost numberless. A short sampling might be of interest: For example, the National Theater (formerly the Carousel) at Cahuenga and Sunset, is currently casting John Van Druten's "I Remembe Mama." I am told that they pay a small salary. The Encore Theater in North Hollywood has a record of better-thanaverage shows and holds open casting for all parts. The Stage Society, originally started by actor Arthur Kennedy, has headquarters just down the street from the Academy Award Theater (a coincidence which has no significance) and are presenting a series of eight plays at the Ivar Theater in Hollywood. Their members are almost exclusively drawn from the professional radio and TV ranks, and I am informed that holding a guild card is generally a prerequisite for membership.

## The Horseshoe Stage

An old friend of mine, Bob Beecher, who was a charter member of the old Orchard Gables Repertory Theater, is currently engaged in the birth of the town's newest addition to the ranks. Some time in August, the "Horshoe Stage" will open its doors, primarily, but not exclusively, as a professional showcase. It will be unusual, on several counts. First of all, it is one of the few theater plants of this sort which was designed and built from the ground up as a theater. The better part of a year went into planning and design before ground was broken. The building itself, with lighting, air The hardwood flooring, seats and decor are in process now. The hardwood flooring, seats and decor are in process now.
A second unusual thing-which will be attested to be anyone who has ever worked semi-profesional theater-is a large roomy dressing room for men, complete with stall shower, and similar facilities for the women.

## Seating and Heating

A third unusual item is the size of the playing area: 24 feet wide by 19 deep-much larger than either the Circle or the Players Ring. The audience-something just under 100 in number-will be seated in a horseshoe about the playing area Complete heating and cooling equipment have been installed. "The best play in the world," Bob says, "is no good if the audience isn't comfortable."
A Saturday-Sunday Children's Theater is being planned at the Horseshoe, too, which means, even more opportunity for the incipient Garrick and the later-day Pepys.

## Manuscripts Needed erary page for the last issue of the Summer Session, July 25. Anyone interested in submitting manuscripts to the Times office, Bungalow 2, is more than welcome to Please limit them to 1000 words as it will become impossible to print them in their entirety if they are too long.

Club members met yesterday for a picnic, and the new officers were installed. All active members received complimentary books of symphony tickets, decorations for the college section of the Bowl were decided upon and plans formulated for a post-concert party mulated for a post-concert party
on College and University Night. Burt Karson was named chairman of the party committee.

State College Chorus, Orchestra Meet Daily During Summer

The Summer Session chorus meets from 11:40 to 12:30 daily in Bungalow C and the orchestra from $10: 40$ to $11: 30$ daily in the Music Hall.

These organizations are open to all students of the Summer Session. It is expected that these groups will make one or two appearances on campus during the summer term, although their primary purposes are to afford students an opportunity to experience the pleasure of performing music.
People who can schedule these activities within their six unit load limit may earn one unit in each. Participation is not, however, limited to registered students.
